A **Systematic Transfer Plan (STP)** is a facility whereby you invest a lump-sum amount in a mutual fund scheme (generally a fixed income scheme) and regularly transfer a fixed amount into another scheme (usually an equity scheme) every month on a specified date.

The **ICICI Prudential Value STP** is an innovation over the regular STP that enables you to take advantage of market fluctuations; you buy more units when the Net Asset Value (NAV) of your selected scheme falls and lesser units when the NAV rises. The Value STP helps you reach your targeted value for every transfer date, by adding or removing funds from your selected scheme. To read more about how the ICICI Prudential Value STP works, please turn overleaf.

TERMS & CONDITIONS / INSTRUCTIONS

ICICI Prudential Value STP is a facility wherein the unit holder(s) can opt to transfer an amount at regular intervals from a designated open-ended Scheme of ICICI Prudential Mutual Fund ("**Transferor Scheme**") to a designated open-ended Scheme of ICICI Mutual Fund ("**Transferee Scheme**"). It includes a feature of a '**Reverse Transfer**' from the Transferee Scheme into the Transferor Scheme, in order to achieve the specified Target Investment Value on each transfer date in the Transferee Scheme, subject to the terms and conditions of **Value STP**. The **Value STP** Facility is available only for units held / to be held in a Non-demat Mode in the Transferor and the Transferee Scheme.

1. Currently, the Scheme(s) eligible for this facility are as follows:

From / Transferor Schemes: All the open ended schemes of ICICI Prudential Mutual Fund except ICICI Prudential Long Term Equity Fund (Tax Saving).

To / Transferee Schemes: In Growth option in all the open ended schemes of ICICI Prudential Mutual Fund where Subscription is allowed, except ICICI Prudential Long Term Equity Fund (Tax Saving).

The above list is subject change from time to time. Please contact the nearest Investor Service Centre (ISC) of ICICI Prudential Mutual Fund for updated list.

2. The **Value STP** Enrolment Form should be completed in English and in Block Letters only. Please tick in the appropriate box, where boxes have been provided. The Value STP Enrolment Form which is complete in all respects should be submitted at any of the Investor Service Centre's (ISCs) of ICICI Prudential Mutual Fund.

3. Only one registration (either Flex STP or Value STP) per target scheme in a folio would be allowed. Investors are advised to read the relevant Key Information Memorandum(s) (KIMs), Scheme Information Document(s) (SIDs) and Statement of Additional Information (SAI) carefully before investing. The SIDs/KIMs of the respective Scheme(s) and SAI are available with the ISCs of ICICI Prudential Mutual Fund, brokers/ distributors and also available on the ICICI Prudential Mutual Fund website i.e. www.icicipruamc.com.

5. Unit holders should note that the Unit Holders' details and mode of holding (single, joint, anyone or survivor) in the Transferee Scheme will be as per the existing folio number of the Transferor Scheme. Units will be allotted under the same folio number. Unitholders' name(s) should match with the details in the existing folio number, failing which the Enrolment Form is liable to be rejected.

6. **Value STP** offers a transfer facility at Daily, Weekly, Monthly and Quarterly intervals. In case the Frequency (Daily/Weekly/ Monthly/Quarterly) and **Value STP** date is not indicated, Monthly frequency shall be treated as the Default Frequency. The Unit holder is free to choose the frequency of such transfers. The dates of transfers/default dates shall be as under, in case day is not specified in case of Weekly frequency then STP shall be registered from Monday as default:

Particulars	Frequency
Daily option	Daily
Weekly Options	Any day of the week from Monday to Friday
Monthly and Quarterly Options	Any day of each month/quarter

In case the day/date of transfer falls on a non-Business Day or falls during a book closure period, the immediate next Business day will be considered for the purpose of determining the applicability of Net Asset Value (NAV) and processing the Transaction.

7. In Value STP, transfers into the Transferee Scheme from the Transferor Scheme are made to achieve the Total Target Investment Value in the Transferee Scheme. This is done by transferring an amount at regular intervals in a way that it increases the Target Investment Value of units in the Transferee Scheme systematically, by a fixed amount (i.e. the first installment amount specified by the Unitholder) on the date of each transfer for the tenure of the Value STP. The amount to be transferred will be arrived at on the basis of the difference between the Target Investment Value and the actual Market Value of the holdings in the Transferee Scheme on the date of transfer.

8. The first Value STP installment will be processed for the first installment amount specified by the Unitholder at the time of enrollment. From the second Value STP installment onwards, the transfer amount may be higher/lower than the first installment amount, as derived by the formula stated below:

[(First installment amount) X (Number of installments including the current installment)] - (Market Value of the investments through VALUE STP in the Transferee Scheme on the date of transfer)

In case the amounts (as specified above) to be transferred are not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme and **Value STP** will be closed.

9. **Reverse Transfer:** On the date of transfer, if the market value of the investments in the Transferee Scheme through Value STP is higher than the Target Investment Value for that month **[(first installment amount) X (number of installments; including the current installment)]**, then a reverse transfer will be effected from the Transferee Scheme to the Transferor Scheme, to the extent of the difference in the amount, in order to arrive at the Target Investment Value.

10. The total amount invested through **Value STP** over its tenure in the Transferee Scheme, may be higher or lower than the Total Target Investment Value of the investment i.e. the [(first installment amount) X (total number of installments specified by the Unitholder)]. This may be on account of fluctuations in the market value of the Transferee Scheme. **If you decide to take up this facility, you should be aware of the possibility, that the total amount invested through VALUE STP could be higher or lower than the Total Target Investment Value of the investment.**

11. The redemption/switch-out of units allotted in the Transferee Scheme shall be processed on the 'First In First Out' (FIFO) basis. **In case there is a redemption / switch-out of any units allotted under Value STP in the Transferee Scheme by the Unit Holder, the balance installments under VALUE STP will be processed as a normal STP** for the remaining installments by investing the amount indicated as first installment amount, on the date of each transfer over the balance tenure of the Value STP, subject to availability of unit balance in the Transferor Scheme.

12. How does the **Value STP** work? - ICICI Prudential **Value STP** consists of two parts as explained below: **transfer & reverse transfer**. The following example illustrates how **Value STP** with a Monthly Interval will work in the Transferee Scheme, if the Target Investment Value is to be increased by an amount of Rs.1,000 every month by way of 12 installments from January to December:

Transfer Date	NAV Per Unit (Rs.)	Target Market Value of Holding (Rs.)	Market Value of Holdings before investment (Rs.) [#]	Amount Transferred (Rs.)	Units Brought/ Redeemed	Total Units Held	Total Amount Invested

*Reverse Transfer; (-ve) units indicate Reverse Transfer; # (Total units before current investment) X (Current NAV)

(i) **Transfer:** The transfers are made in a way to increase the market value systematically by Rs. 1,000 every month. Therefore, in January, there is a transfer worth Rs. 1,000 (100 units @ NAV Rs. 10).

Case 1: If the NAV of Transferee Scheme rises to Rs. 12 in the month of February, the market value of the existing 100 units rises to Rs. 1,200. As the Target Investment Value (the sum of pre-specified monthly installments) for the month of February is Rs. 2,000, the amount transferred under the Value STP will be Rs. 800, to ensure that the Target Investment Value of the month is not exceeded. This will give an additional 66.67 units @ Rs. 12 to the Transferee Scheme, raising total number of units to 166.67 units.

Case 2: If the NAV of Transferee Scheme decreases to Rs.11 in the month of March, the market value for the 166.67 units purchased through the previous installments falls to Rs.1833 (166.67 X 11). Since the Target Investment Value of the Transferee Scheme in March should be Rs. 3,000, the transfer amount will be Rs. 1,167. This will give an additional 106 units @ Rs. 11 to the Transferee Scheme, raising the total number of units to 272.73 units.

(ii) **Reverse Transfer:** This transfer is made from the Transferee Scheme to the Transferor Scheme, when the Market Value of the Transferee Scheme exceeds the Target Investment Value.

Case 1: The Market Value in the month of July is Rs. 7,500, prior to the transfer of the specified monthly amount. A Reverse Transfer will be made to transfer units from Transferee Scheme to Transferor Scheme for the excess value, to ensure that the Target Investment Value for the month is maintained. Therefore, as the market value of the transferee scheme (Rs.7500) exceeds the Target Investment Value for the Month (Rs.7000), 50 units (as indicated by the negative sign) worth Rs.500 were taken out (i.e. the excess amount over Rs. 7,000) thereby reducing the number of units held in the Transferee Scheme.

However, it may be noted that the Total Amount invested through Value STP could be more than the Total Target Investment Value specified during registering for the Value STP as highlighted by the illustration below:

Transfer Date	NAV/ Unit (Rs)	Target Market Value of Holding (Rs)	Market Value of Holdings before Investment (Rs) [#]	Amount Transferred (Rs)	Units Brought/ Redeemed	Total Units Held	Total Amount Invested

*Reverse Transfer; (-ve) units indicate Reverse Transfer; # (Total units before current investment) X (Current NAV)

The Target Investment Value of holding at the end of a 12 month period is Rs.12,000. As the NAV of the Transferee scheme has periodically reduced, the total amount invested has kept on increasing, to ensure that the market value of the investment matches the Target Investment Value for that particular month (for instance; in the months of April & May). In case the amounts (as specified above) to be transferred are not available in the Transferor Scheme in the unit holder's account, the residual amount will be transferred to the Transferee Scheme and Value STP will be closed.
